

Color-Grown Organic Cotton Socks Made by Organic Threads

Hi! I am making these socks available as a service, with very little mark-up. I would be happy to refer you to a site where you can buy in bulk instead of through me if you prefer.

(See www.vreseis.com/ which describes Foxfibre with a calmness that belies the incredibly triumphant, against-all-odds story of production & manufacture of these products!) More at Pesticide Action Network .

Pkg: brown, cream, green, or combo.

Colors deepen after washing - see green socks out of package before and after wash (above)! 85%/88% certified organic cotton; 10% stretch nylon (outer foot), 5%/2? elastic, rubber core covered with nylon (inner top).

Email with name, type, size, number and preferred colors (what's in stock varies!) Also include zip code or full address for S/H quote. Allow 2 weeks in case not in stock. Discount if shipped with other products.

(Sadly, factories find it too costly to clean up and run organic support socks if only few buy them. I have all sizes in stock but only a few dozen remain for anyone to reorder.)

"Natural" (cream) sock dyed with **natural non-toxic traditional dyes** that are color-fast and light-fast, using safe mordants or none - for pretty, more uniform colors!

Nontoxic naturally-dyed red and yellow available this summer. I use colorfast & lightfast traditional and historical dyes only, including some I am growing organically, all with no mordant or only with alum.

Price TBA. Inquire at green4christ@sbcglobal.net
